Objective

I'm seeking full time employment in software development with a focus on AI-assisted workflows. I want to continue to learn and explore new computing technologies, and implement reliable solutions by using them creatively.

Professional Summary

Full-stack Software Engineer with 8+ years of experience developing applications and implementing complex computing solutions. High interest and expertise in creating customized systems that use modern architecture. Current projects focus cloud-based web server development that integrate AI-assisted tools.

Experience

Undergraduate Teaching Assistant for SER321 Distributed Software Systems, Arizona State University. March – May 2024

- Worked with the instructional team to design assignments and be diplomatic about student issues.
- Supported students through reliable message board presence and by hosting office hours.
- Helped troubleshoot tech issues, explain concepts, empathize with students, and support skill building.
- Designed Wheel of Fortune Java server assignment, supporting concurrent client connections.

CNC Plasma Cutter Technician & CAD Model Designer, BAM Logistics. Cobleskill, NY. June – August 2022

- Used CAD software tools to transform rough client drafts into clean digital models for automated fabrication.
- Prototyped solutions to client design requirements, and collaborated with shop staff to assess the quality of solutions.
- Operated CNC plasma cutter equipment, overseeing operation and changing consumables.

Co-lead Full-stack Developer, Capstone Project, Rollodex for Appy.yo. October 2024 – May 2025

- Led remote team through two-week Scrum sprints as Git master.
- Designed TypeScript APIs, Prisma database schemas, and rebuilt React search / filter UI.

Solo AI-Assisted Full-stack Engineer, Portfolio Website. October 2025 – January 2026

- Built a personalized portfolio with trilingual support, an AI chatbot, and custom UI components.
- Instructed Codex to complete complex tasks from a self-designed task list.
- Used an Oracle Cloud virtual Linux instance with Fastly CDN for quick and dependable hosting.

Education

Ira A. Fulton Schools of Engineering at Arizona State University

Bachelor of Science in Software Engineering, 2025

GPA: 3.59

Schenectady County Community College

Associate of Applied Science in Computer Science, 2020
